DISPATCH NO. EGGW-4247

FEB 10 1953

CLASSIFICATION

TO : Chief of Mission, Frankfurt
FROM : Attn: FHB/ []
Chief, EE
SUBJECT: GENERAL - Operational/CALL
SPECIFIC: VULTURE/KOB

DATE:

1. While going through the files recently we noticed that there is no information on VULTURE/KOB/E, I and H. The indicators E and I are mentioned in some previous correspondence, but we have no information concerning the location of and the equipment in those cases. Please advise us regarding those cases; if the information on those burials has been forwarded previously, please give us the reference numbers and dates so that we may attempt to locate them. Also, has any equipment been cashed for KIBITZ 6's team? If so, please advise as of the location, etc.

2. For convenience, please continue to designate future burials for the KIBITZ program as VULTURE/KOB (later designation) until such time as a new indicator may be assigned.
